SKILLS

-
- Languages: C++, Java, JavaScript, Python, c
 - Frameworks/Libraries: HTML, CSS, React.js, Node.js
 - Machine Learning: Scikit-learn
 - Data Analysis & Visualization: NumPy, Pandas, Matplotlib, seaborn
 - Tools/Platforms: MySQL, Linux, Git, GitHub
 - Soft Skills: Critical Thinking, Leadership, Communication, Team Collaboration

PROJECTS

RedDot- Smart Period Tracker & Wellness Assistant

Feb 2026 – April 2026

Developed and tested REST APIs for menstrual and ovulation tracking features using Java and REST Assured, ensuring 82% prediction accuracy through robust backend validation.

- Automated UI testing workflows with Playwright and Postman, covering key user interactions like cycle tracking, mood logging, and doctor consultations.
- Designed and executed test cases for edge and corner scenarios using data structures such as arrays and hash maps to simulate irregular cycles and real-world usage.
- Integrated test automation with CI/CD pipelines via GitHub Actions and maintained version control with Git, enabling continuous feedback and reliable deployments.

Tech: Java, JavaScript, REST Assured, Playwright, Postman, Git, GitHub Actions, React.js, Laravel, Chart.js, CI/CD.

SmartOCR – Transformer-based Handwritten Text Recognition

Dec 2025 – Jan2026

- Fine-tuned TrOCR (Transformer-based OCR model) using PyTorch on IAM and Imgur5K datasets, achieving CER $\leq$ 6.3% and WER $\leq$ 13.7%, validating results with rigorous evaluation scripts.
- Built robust validation pipelines using OpenCV and data augmentation to simulate noisy, blurred, and cursive handwriting, improving model consistency in real-world conditions.
- Delivered a testable, reproducible OCR system ready for integration into document digitization pipelines across domains like healthcare, education, and legal archiving.

Tech: Python, PyTorch, TrOCR, Hugging Face Transformers, OpenCV, Google Colab, Kaggle, Git

ExpXchange - A Platform for Collaborative Skill Sharing

Sept 2025 – Nov 2025

- Developed a JWT-secured system ensuring encrypted user interactions across 10K+ sessions on ExpXchange.
- Architected a sophisticated CRUD infrastructure across 11 microservices, enabling user profiles, skill listings, and real-time session management with high scalability.
- Designed a feature-rich admin dashboard using Node.js and Express.js, streamlining operations and boosting admin efficiency by 30%.

Tech: Node.js, Express.js, MongoDB, JWT.

CERTIFICATES

-
- | | |
|--|------------|
| • Pandas– Data Manipulation with Pandas | Aug-2026 |
| • Data Structure and Algorithms – Self paced – GeeksforGeeks | Aug-2026 |
| • Cybersecurity certification–Infosys Springboard | April-2026 |

ACHIEVEMENTS

-
- LeetCode Coding Contest: Jan-2025
Solved 500+ algorithm problems on LeetCode; ranked in the top 14% globally in coding contests.

EDUCATION

Lovely Professional University	Punjab, India
• Bachelor of Technology - Artificial Intelligence & Machine Learning CGPA: 9.22	Since August 2025
• Guru Gobind Singh Public School	Ranchi, Jharkhand
Intermediate; Percentage: 83%	April 2024 - March 2025
• Guru Gobind Singh Public School	Ranchi, Jharkhand
Matriculation; Percentage: 87.6%	April 2022 - March 2023
